INDEX TO VOLUME XXXIII

AIFANTIS, ELIAS C., and HILL, JAMES M. On the Theory of Diffusion in Media with Double Diffusivity I. Basic Mathematical Results . . 1

AIFANTIS, ELIAS C., see HILL, JAMES M.

BADDOUR, R. E., see HUNT, J. N.

BELLAMY-KNIGHTS, P. G. Viscous Compressible Heat Conducting Spiralling Flow 321

BODONYI, R. J., see SMITH, F. T.

BREARLEY, M. N. Investigation of Castor-Wheel Shimmy 491

BROSA, U., and KRAPPE, H. J. On the Dynamics of Colliding Droplets 159

CALTAGIRONE, JEAN-PAUL. Stability of a Saturated Porous Layer Subject to a Sudden Rise in Surface Temperature: Comparison between the Linear and Energy Methods 47

CEBECI, TUNCER, see STEWARTSON, KEITH.

CHANG, K. C., see STEWARTSON, KEITH.

CREASY, C. F. M. Derivation of Flory's Thermodynamic Relations from a Phenomenological Theory of Rubber Elasticity 463

DANIELS, P. G. Conductive Flow in a Rotating Box 141

DAVIS, A. M. J. The Torque on a Rotating Body in a Liquid with a Surfactant Layer and its Relation to the Virtual Mass of a Heaving Body 337

DUCK, P. W. Pulsatile Flow through Constricted or Dilated Channels 77

GOODEN, D. K., see WATERS, N. D.

HAUGHTON, D. M., and OGDEN, R. W. Bifurcation of Finitely Deformed Rotating Elastic Cylinders 251

HEADING, J. The Effects of an Approximate Replacement of One Ionospheric Refractive Index Profile by Another 397

HILL, JAMES M. The Finite Inflation of a Thick-Walled Elastic Torus . 471

HILL, JAMES M., see AIFANTIS, ELIAS C.

HILL, JAMES M., and AIFANTIS, ELIAS C. On the Theory of Diffusion in Media with Double Diffusivity II. Boundary-Value Problems . . 23

HUNT, J. N., and BADDOUR, R. E. Nonlinear Standing Waves Bounded by Cylinders 357

IRVINE, H. M. Energy Relations for a Suspended Cable 227

JONES, D. S. The Scattering of Long Electromagnetic Waves 105

KRAPPE, H. J., see BROSA, U.

LAWS, N. A Note on the Prediction of Overall Moduli for Composite Materials 43

MARTIN, P. A. On the Null-Field Equations for the Exterior Problems of Acoustics 385

OGDEN, R. W., see HAUGHTON, D. M.

PACKHAM, B. A. Small-Amplitude Waves in a Straight Channel of Uniform Triangular Cross-Section 179

PALM, ENOK, and TVEITEREID, MORTEN. On Coupled Van der Pol Equations 267

PIPKIN, A. C., see ROGERS, T. G.

RENTON, J. D. On the Buckling of Rings and Long Tubes of Finite Thickness Under Lateral Pressure 435

RICHARDSON, A. T. The Linear Instability of a Dielectric Liquid Contained in a Cylindrical Annulus and Subjected to Unipolar Charge Injection 277

ROGERS, T. G., and PIPKIN, A. C. Holes in Inextensible Networks . . 447

SHAIL, R. Orthogonal Polynomial Solutions to some Mixed Boundary-Value Problems in Elasticity. III 235

SLEEMAN, B. D. Acoustic Scattering by Inhomogeneous Media . . . 373

SMITH, F. T., and BODONYI, R. J. On the Stability of the Developing Flow in a Channel or Circular Pipe 293

STEWARTSON, KEITH, CEBECI, TUNCER, and CHANG, K. C. A Boundary-Layer Collision in a Curved Duct 59

TAKASHIMA, M. Electrohydrodynamic Instability in a Dielectric Fluid between Two Coaxial Cylinders 93

TAO, L. N. On Solidification of a Binary Alloy 211

TVEITEREID, MORTEN, see PALM, ENOK

WALTON, I. C. The Stability of Free Convection in a Horizontal Cylindrical Annulus 125

WATERS, N. D., and GOODEN, D. K. The Couple on a Rotating Oblate Spheroid in an Elastico-Viscous Liquid 189

WICKHAM, G. R. Short-Wave Radiation from a Rigid Strip in Smooth Contact With a Semi-Infinite Elastic Solid 409
